Offering you uncompromising quality and affordable warmth from a manufacturer with over 30 years pedigree, our range of Woodpecker Stoves have been designed in Britain to be some of the cleanest burning stoves in the marketplace, and all at a very attractive price point for this quality of stove.

A full five year warranty is your assurance of the quality of our stoves.

All our stoves adhere to the latest and most stringent environmental standards.

DEFRA exemption allows you to burn seasoned wood in smoke-controlled zones.

Using an optional kit, your stove can draw air directly from outside your property.
