VITREOUS ENAMEL SURFACES  
FOR THE LIVING ENVIRONMENT

---

*Care Guide*

---

# *Cleaning VLAZE*

---

VLAZE vitreous enamel is an impermeable solid surface created by fusing powdered glass to steel at temperatures in excess of 800°C. It can be maintained with minimum care to retain its original vibrant appearance.

## *Everyday cleaning*

For most residues and dust deposits you can simply use a damp microfibre cloth, then buff the surface dry with a cotton or paper towel to prevent any streaks. Always clean with a circular motion.

## *More resistant stains*

Stubborn food residues or spills can be removed using a soft damp cloth and a VEA approved cleaner such as *Astonish Kitchen Cleaner*. Visit [www.vea.org.uk](http://www.vea.org.uk) for more information.

## *Chemical spills*

Accidental spillage of strong chemicals such as paint stripper and oven cleaners should be flushed with plenty of clean water and then wiped with a soft wet cloth.

# *Caring for VLAZE*

---

## *Scratches & impact*

- Always keep the surfaces clean and wiped down as small particles can cause abrasion.
- Avoid impact of heavy or sharp items to the edges and surface.
- Avoid placing very hot objects directly on the surface.
- Darker colours will show abrasions more than lighter colours.
- Never use abrasive cleaning chemicals, scrapers, wire wool or scotch pad scourers to clean the surface.

## *Damage or chips*

If you do damage the edge or surface by scratching or chipping the enamel glaze then please do not attempt to repair yourself. Keep it dry and clean and contact your VLAZE supplier.

## *Finally...*

While vitreous enamel is an exceptionally hard wearing material it is not unbreakable or completely scratch resistant. It should be considered as a decorative surface that will age gracefully and gain character over years of use.

## YOUR VLAZE SURFACE 25 YEAR GUARANTEE

Once activated your new VLAZE product is guaranteed against material and manufacturing defect for a period of twenty five years from the date of registration.

Please register at [VLAZE.CO](http://VLAZE.CO) or scan the QR code within fourteen days of delivery to activate your guarantee.

*Terms and conditions apply and can be found on our website.*
